

## **B & J BUILDING CONSULTANTS & STEEL SUPPLIES**

Established in 1997 B&J has established itself as the number 1 specialist steel and alloy fabricator in the North. No matter where in the Kimberley and Pilbara your steel and building needs are – B&J can give you a product you can rely on, at a price you'll like.

Our quality and commitment to customer satisfaction has been recognised repeatedly with awards and commendations from the Master Builders Association, State and Federal Training and Apprenticeship awards. Our most valuable reward comes from the repeat business of individuals, corporations and builders from across the top end who value the pride and quality we bring to each job.

### **WHAT DOES B&J QUALITY MEAN?**

We have rigorous quality control mechanisms to ensure all our work meets the highest standards of workmanship and is fit for purpose. You won't find problems with our product and it will stand the test of time.

It starts with the design of our workshop; clear accessible work bench's that don't restrict access, smooth work flow from start to delivery, clean and work safe. Our in house drafting team ensure that all engineering and technical needs are fully checked and that build drawings comply with all requirements.

**General engineering, welding and steel fabricators**  
**Wall framing, roof and flooring system fabrication**  
**Design Drafting**

**Commercial and Private Boat and trailer modifications**

**Design, Supply and Build for sheds, workshops, carports, garages, veranda's and enclosures**

**Custom designed and built transportable**

**Speciality stainless steel fittings and fixtures**

**Metabo power-tools and Impressive fencing**

Full documentation is maintained for all work. All cutting and welding is checked and supervisor checked under the watchful eye of our leading hand boilermaker. Our packing and freight systems will get the gear safely to you, on time and should there be a problem we won't argue the toss, we'll come on site - fix the problem and then work out what's happened, when and where.

We pride ourselves on our quality and ensure it's built to last,

We hold specifications for Region A and Cyclonic Regions C & D, living here we know

how tough the conditions can be no matter how pretty it looks most of the time. We'll be here after the next cyclone and want to point to those houses still standing and say "That's B&J for you".

## OUR COMMITMENT TO TRAINING

We have a wide range of trade qualified staff and have a high commitment to our apprentices and trainees in boilermaking, carpentry, steel fabrication and administration.

All our staff are encouraged to seek training opportunities, whether in formal apprenticeships, traineeships or in smaller courses including riggers and doggers tickets, forklift, EWP and heavy vehicles.

We are constantly striving to improve our quality and to provide design and structural innovation for you.

**TAFE WA Kimberley**  
**“Trainer of the Year” 2005 & 2006**

**Ministers Awards for Excellence**  
**“Employers of New Apprentices”**  
**Runner Up 2005, 2006, 2007 & 2008**

We have one of the highest rates of trades and apprentices in the Kimberley and it's our customers who reap the benefits of a committed, vital and dynamic workforce.

We recently entered a partnership with local training provider Djaringo to provide an innovative training programme for up to 43 local people to gain a trade over the next four years. Supported by DEEWR this entrenches critical skills in the region for years to come.

## BIG JOBS NO PROBLEM

We've negotiated great prices with national steel suppliers and have extensive workshop facilities in Broome's Port Drive. Give us a call and let us show you our commitment and ability to complete the job to your satisfaction.

Got a special job? Long structural pieces, complicated roof lines, large scale commercial or exacting home specifications are welcomed by our trades-men and women. Give us a challenge and see our pride and quality come out.

## BUILDING OUR COMMUNITY - BUILDING OURSELVES

We've built with the Communities of the Pilbara and Kimberley, while we've built the houses.

We are strong investors in the future of own towns through recruiting and training residents of the north: Over 80% of our staff are Northerners, and we've a strong commitment to employing Indigenous people from the Pilbara and Kimberley, currently filling about 40% of our staff.

# DLS

## DIVERSE LABOUR SERVICES

Established in 1997 DLS has been providing a comprehensive labour service throughout the Kimberly and Pilbara. Since rebuilding the Broome Turf Club after Cyclone Rosita we have undertaken large and small jobs in towns, out-bush and everywhere in-between. No job is too complicated or tough, we have the trades, tickets and experience to handle every job.

### AN EXPERIENCED SKILLED TEAM

**Brock:** Manager with 10 years experience in the construction industry, a carpenter by trade Brock can draft, specify and quote a solution for your project.

**Matty:** Site Supervisor with 7 years experience, holds dogging and rigging tickets, hi-ab and crane operator licences.

All our crew have the skills you need to get the job done, boilermakers, carpenters, riggers and welders. We are proud of our commitment to a top quality finish and have made the commitment to staff training to ensure this.

We know what we're doing and will deliver on-time, on-budget, with the finish you want.

### BIG JOBS NO PROBLEM

Rebuilding the Broome Turf Club after the party Rosita put on out there was just the start – we've been on-site in many of the biggest jobs across the Pilbara and Kimberley including high specification jobs with Australian Customs and the Army.

### WE'RE ON TOP WITH EQUIPMENT ON TAP

Need some special gear? Whether we're digging a drain or erecting a steel roof system we bring it with us, we've a fully stocked equipment trailer (the big one), we have MIG and TIG welders, cranes, platforms, including EWP, hiab, bobcat & low loader and scaffolding.
